loose covers

George Smith makes beautiful loose covers. They are practical, and can instantly change the appearance of a piece of furniture or the whole look of a room. Loose covers can be changed seasonally with light, fresh summer fabrics over a more practical winter cloth. Our covers are really useful if you have furniture shared by the whole family. A sofa used by small children, or messy adults, can have a hard-wearing cover that is easy to remove and have cleaned.

It is worth considering that some furniture details, such as scroll arms, may be lost by a loose cover and the appearance of the furniture may change considerably. We have shown two examples opposite, and often the fit is so good that your furniture looks fully upholstered.

There is always someone at George Smith to talk you through the options personally.

Standard Arm Signature Sofa
Shown with tight fitting loose cover made with tie under detail to keep the legs exposed.

Short Scroll Arm Signature Sofa with Loose Back Cushions
Shown with boxed back cushions and loose cover.
A kick pleat skirt has been added to conceal the legs.

sectional sofas

Many of the George Smith pieces can be designed as sectional sofas. They are great to define a space and provide a large amount of comfortable seating. Most of our sectional sofas can be made in a modular way for extra flexibility or fully upholstered in-situ as a complete piece. We can assist you in planning your layout, number of seats and even how your cushions are filled.

Sectional sofas may not be suitable for every situation and we are always on hand to offer useful advice.
