

The Sims Hilditch Collection

The Sims Hilditch collection is a mark of beautiful, practical design for inspirational interiors, tailored for ultimate luxury. Encompassing the Emma Sofa, Emma Chair and Emma Ottoman, the collaboration is a celebration of British design and craftsmanship, making pieces to last generations.

Sims Hilditch have designed this timeless collection to suit both city and country homes as well as hospitality settings. The elegant, curved profiles of each piece were carefully considered to create a balance between comfort and formality. The pillow back and sloped arms of the chair and sofa are the first of their kind in the George Smith catalogue, adding to their already impressive range, with the inclusion of a timeless and fun octagon ottoman.

Much of the design inspiration behind this collection stems from Emma's love of the British countryside. When curating an interior, Emma and her team use the landscape and local architecture to inform the overall design language. The process behind creating the George Smith collection was much the same – the pieces were designed to be minimalist and refined, elegant and versatile; inspired by the rolling hills of the British countryside. The first pieces made express a love of nature through floral linens, tactile wools, and cosy velvets.

Emma Sofa

With sloped, sleigh-like arms and sumptuous pillow cushions, the striking shape of the Emma Sofa brings a welcoming elegance, which can be dressed with a skirt or without.

Emma Chair

Sculptural and refined, the Emma Chair is reminiscent of the rolling hills of the British countryside. The dimensions have been refined to suit all spaces in both city and country homes.
